Cast Metal Twin Post Sign

Traditional Elegance, Lasting Quality...

The Ken White Signs Twin Posted Cast Metal Signs combines timeless design with robust construction, creating an elegant and long-lasting signage solution for prestigious outdoor environments.

Inspired by traditional cast metal craftsmanship, each sign features a beautifully textured background complemented by raised lettering, decorative borders and intricate detailing.

The contrasting metallic finishes give the signage a distinctive three-dimensional appearance, adding depth, character and a sense of quality.

Perfectly suited to country estates, heritage properties, private residential developments, golf clubs, luxury hotels, leisure resorts and exclusive visitor destinations.

Cast Metal Finger Post

Timeless Design, Traditional Craftsmanship...

Our traditional Finger Post Directional Signs combine timeless craftsmanship with durable, high-quality materials to create an elegant and practical wayfinding solution.

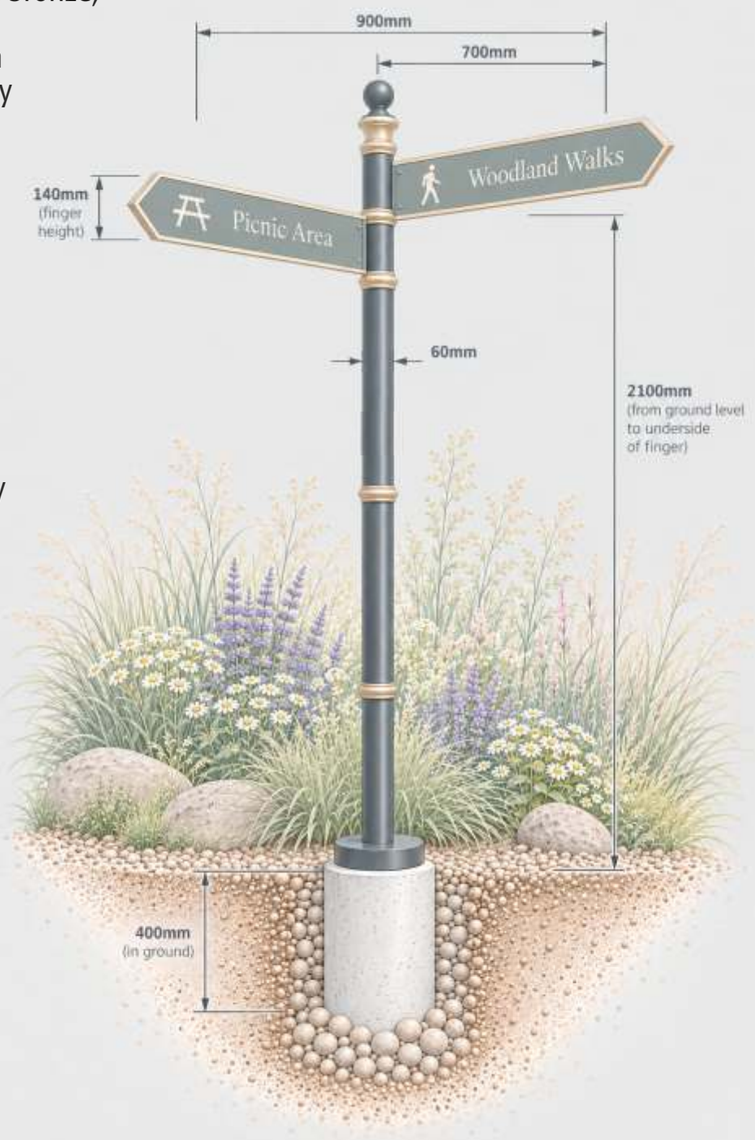

Available in cast aluminium or cast bronze, each finger post can be tailored to complement its surroundings, from prestigious golf courses and country estates to heritage properties, landscaped gardens and public spaces.

Featuring classic decorative detailing, raised lettering and traditional directional fingers, these signs offer a distinctive architectural appearance with excellent longevity.

Each finger post can be individually specified to suit the project, with many options available.
